Description

Continue to explore the world of replica watches and bring you this Rolex Daytona M116505-0011 replica watch produced by Clean Factory. The dial of this watch is rose gold, with a metal strap. The whole watch is rose gold, which can be said to be an authentic gold watch. With a mysterious and noble feeling, it has its own extraordinary charm. That noble style is unique.

Please pay attention to more details:

The seam between the glass and the case is completely transparent, and no white edge can be seen. The curvature of the glass edge is consistent with the original, the height of the ceramic ring protruding from the glass is consistent with the original, the ceramic ring has a stronger rounded feeling, the font is clean, and the edge of the ceramic ring is slightly rounded.

The luminous filling height is moderate, and the brightness is good. The font printing is three-dimensional, and the size of the small black circle is consistent with the original.

The strap or case fits seamlessly, the top of the strap/case is flush with the case, and the tail is slightly concave. The bottom of the strap or case is flush with the watch head, which is consistent with the original.

Exquisite enamel black dial, zero color difference, carefully assembled three-layer dial, each part is electroplated. The bezel is filled with precisely matched black oil to present the same matte effect as the original.

The watch is equipped with a new customized Rolex-exclusive Cal.4130 automatic winding movement, which is consistent with the thickness of the original. Each function is 100% realized and equipped with an unprecedented customized KIF shock absorber. The entire assembly follows the design of the genuine Cal.4130 movement, and all three splints perfectly reflect the original from chamfers to sunray patterns, maintaining 1:1 respect for the original design. This not only surpasses all Daytona series replicas on the market but is also the only replica that can rival the original.

Clean Factory's replica Rolex Daytona watch uses 904L material, 4130 movement, an AR strap, a clean dial/unique version, a clean ceramic ring, and polished factory hands, with a thickness of 12.2-12.3.
