Description

Continue to explore the best Rolex Cosmograph Daytona M116519LN-0025 replica watch in the Clean Factory. This watch has a black dial and a dark gray rubber strap. The sporty and fashionable appearance is a versatile style for daily wear. The color is also low-key and plain, and it will not be outdated for many years. It is powerful, and the quality is absolutely excellent. Please rest assured!

Please pay attention to more details below:

This watch has an impeccable enamel black dial with minimal color difference. The three-layer dial is carefully assembled, and each component is electroplated. The bezel uses a precisely matched black oil seal to present the same matte effect as the original.

The watch is equipped with a new customized Rolex-exclusive Cal.4130 automatic

winding movement with the same thickness as the original. All functions are 100% accurate and equipped with unprecedented customized KIF shock absorbers. The entire assembly process follows the design of the genuine Cal.4130 movement. The three plywoods, from chamfers to sunburst patterns, perfectly echo the genuine ones, respecting the original design 1:1. This not only surpasses all Daytona replicas on the market but is also the only replica that can compare with the genuine ones.

This replica Rolex Daytona watch from Clean Factory is made of 904L material, equipped with a 4130 movement, AR strap, clean dial/special edition, clean ceramic bezel, and polished original hands, with a thickness of 12.2-12.3 inches.

The seam between the glass and the case is completely transparent, with no obvious white edges. The curvature of the glass edge is consistent with the genuine one, and the height of the ceramic ring protruding from the glass is consistent with the genuine one. The ceramic ring is rounded and more three-dimensional, the font is clear, and the edge of the ceramic ring is slightly rounded.

The luminous filling height is moderate, the brightness is good, the font is printed three-dimensionally, and the size of the small black circle is consistent with the genuine one.

The strap/case fits seamlessly. The top of the strap/case is flush with the case, and the tail is slightly concave. The bottom of the strap/case is concave with the watch head, which is consistent with the original.

Clean Factory brand new built-in memory steel sheet and fluororubber strap

Specification

Features	
Brand	Rolex
Model	Daytona
Serial Number	M116519LN-0025
Gender	Man
Movement Type	Automatic Movement
Movement Model	Cal.4130 Automatic Movement
Case Size	40mm
Case Material	904L Stainless Steel
Hands and Markers	Black-edge hands and hour markers precisely replicate the design and shape of the original
Bezel	The black ceramic bezel is a standout feature of

	this model. It is engraved with a tachymeter scale, which allows for precise speed calculations based on time and distance. The durable ceramic material enhances the bezel's scratch resistance, ensuring it
Crystal	The watch is equipped with a scratch-resistant sapphire crystal, which provides excellent protection for the dial. The high-quality crystal ensures that the watch remains free from scratches, maintaining clarity and durability for years to come.
Dial	The black dial is the centerpiece of this timepiece, offering a sleek and bold contrast against the stainless steel case. The three subdials, positioned at 3, 6, and 9 o'clock, are easily distinguishable, adding to the Daytona's iconic look. The luminous
Bracelet	The watch comes with a stainless steel Oyster bracelet, which is both stylish and comfortable. The bracelet features polished and brushed links, offering a refined look with a sporty edge. The Oysterlock clasp ensures a secure and adjustable fit, making i
