Short Description

Welcome, Clean Factory has released the Rolex Datejust M126331-0009 replica watch. The replica watch is available with a pink dial and is equipped with a customized 3235 movement. With excellent craftsmanship, it creates an extraordinary replica watch.

Description

Keep an eye on this clean factory replica Rolex M126331-0009 watch, measuring 41 mm. This watch features a pink dial and a metal strap. The subtle pink hue is gentle and charming, creating a captivating image. The pure style exudes youthfulness and a vibrant energy, conjuring up a picture of youth and beauty. Furthermore, it's backed by a powerful engine. It's powered by the Rolex Datejust 72-hour free-spacing movement, a one-to-one replica of the Super 3235 caliber, offering both aesthetics and stability.

Features of the new Clean Factory Rolex Datejust watch

1. This model features a simple gold Rolex Datejust.
2. The pink noodle-scale dial has no color variation.
3. The strap also features a three-section design, and all components are electroplated.

- 4. The bezel is 18K gold-plated.
- 5. More Rolex Datejust colors will be released in the future.

This watch is crafted from 904L stainless steel and comes with an optional AR steel strap and IP vacuum-plated platinum bezel, ensuring fade resistance and offering free replacements.

The dial's sunburst pattern is identical to the original, while the unique calendar font allows for true 1-31 date comparison.

The hands and crown have a consistent luminous finish, thanks to the use of identical colors, third-party processing, and in-house Swiss C1+C3 luminous powder.

The platinum-plated crown and crown markers add a luxurious touch. While Clean Factory's product selection may be limited, each piece is a masterpiece, addressing common industry pain points with its dedication to perfection.

Specification
