Short Description

Here is the replica Rolex Daytona M116515LN-0041 watch released by Clean Factory. The replica watch is available with a chocolate dial and is equipped with a customized 4130 movement. It is finely crafted and of superior quality.

Description

At this moment, we present to you the replica Rolex Daytona M116515LN-0041 watch launched by the factory. The dial color of this watch is an attractive chocolate color, with a dark gray rubber strap. It has excellent gloss and excellent texture. Against the backdrop of the special chocolate color, it is filled with an elegant and unique temperament. It makes people fall into its attraction. In addition, it has a new built-in memory steel sheet, and the internal quality is professional and high-end.

This watch has an impeccable enamel black dial with minimal color difference. The three-layer dial is carefully assembled, and each part is electroplated. The bezel uses a precisely matched black oil seal to present a matte effect consistent with the original.

The watch is equipped with a new customized Rolex-exclusive Cal. 4130 automatic winding movement, and the thickness is consistent with the original. All functions are

100% realized and equipped with an unprecedented customized KIF shock absorber. The entire assembly process follows the design of the genuine Cal.4130 movement. The three plywoods, from chamfers to sunburst patterns, perfectly echo the genuine ones, respecting the original design 1:1. This not only surpasses all Daytona replicas on the market but is also the only replica that can compare with the genuine ones.

This replica Rolex Daytona watch from Clean Factory is made of 904L material, equipped with 4130 movement, an AR strap, a clean dial/special edition, a clean ceramic bezel, and polished original hands, with a thickness of 12.2-12.3 inches.

The seam between the glass and the case is completely transparent, with no obvious white edges. The curvature of the glass edge is consistent with the genuine one, and the height of the ceramic ring protruding from the glass is consistent with the genuine one. The ceramic ring is rounded and more three-dimensional, the font is clear, and the edge of the ceramic ring is slightly rounded.

The luminous filling height is moderate, the brightness is good, the font is printed three-dimensionally, and the size of the small black circle is consistent with the genuine one.

The strap/case fits seamlessly. The top of the strap/case is flush with the case, and the tail is slightly concave. The bottom of the strap/case is concave with the watch head, which is consistent with the original.

Specification
