**Weight:** 0.00kg

**Dimensions:** 0.00cm x 0.00cm x 0.00cm

**Price:** ~~\$769.00~~ \$519.00

### Short Description

Thank you for your attention. Let's appreciate this Rolex Submariner 116613LB-0005 replica watch released by Clean Factory. The replica watch has a blue dial to choose from and is equipped with a customized 3135 movement. It is a classic model and is presented to you with exquisite craftsmanship.

### Description

Further exploration, this is a replica Rolex Submariner 116613LB-0005 watch produced by the factory, with a size of 40mm. The dial color is blue, with a metal strap. The appearance can be said to be very classic and fashionable. This blue is also a common color, and it is matched with a partially gold strap, which brings a less dull feeling. Excellent quality, elegant and fashionable, daily matching is effortless. Advantages of the factory-cleared replica Rolex Submariner watch:

**1:1 superb movement:** Our replica Rolex Submariner watch uses a 1:1 superb movement, equipped with a powerful and stable 3135 movement, with a power reserve of up to 72 hours.

**High-quality materials:** The entire watch is made of 904L stainless steel and is matched with an AR original strap to ensure excellent durability and corrosion resistance.

Unique dial design: We use an exclusive "flat-top dial" design without a foot, showing a unique style and beauty.

Unique calendar font: Our watches use the only genuine calendar font, and the fonts of dates 1 to 31 are compared in detail to ensure perfect restoration of details.

Luminous effect: To achieve the luminous effect, we use third-party processing and self-purchased Swiss C1+C3 luminous powder. Color consistency is essential for the luminous effect of hands and hour markers.

IP platinum electroplating of watch nails: Our watch nails are IP platinum electroplated, which enhances the overall appearance and brings high-end texture.

Highly similar to the color of original ceramic parts: The color of our watches is very similar to the original clean ceramic parts, symbolizing high quality. Beware of counterfeit products and pay attention to distinguish between true and false.

Perfectly replicated luminous beads: We use warm-toned luminous beads to perfectly replicate the clean ceramic bezel and luminous beads of the Submariner to ensure excellent luminous performance.

Although the styles provided by Clean Factory are limited, each one is a masterpiece that solves most of the pain points of Rolex Submariner watches on the market. Our pursuit is always to strive for perfection, provide excellent quality and meticulous attention to detail.
