Short Description

Come and pay attention to Clean Factory's release of the Rolex Datejust M126234-0015 replica watch. The replica watch is available with a black dial and is equipped with a customized 3235 movement. It has a beautiful and fashionable appearance and a strong and stable internal power.

Description

Continuing our exploration journey, this is a clean factory replica Rolex m126234-0013 watch, size 36mm. The dial color of the watch is black, with a silver metal strap. A classic and durable style, very versatile for daily use, simple and good looking. The color matching is pure, and it belongs to the type that will not fade over the years and will not be boring. A good companion for a long time. Superior quality, providing strong internal power, so you don't have to worry.

This watch is made of 904L stainless steel, with AR steel strap and IP vacuum-plated platinum gear ring to ensure that it is not easy to fade and can be replaced free of charge.

The sunburst pattern on the dial is very similar to the original, and the unique calendar font on the market can achieve a true 1-31 date comparison.

The Rolex Datejust 36mm replica women's watch series displayed by Clean Factory is an exquisite replica of Rolex watches. The Rolex 72-hour free-spacing movement and the one-to-one Super 3235 integrated movement are used, which are both beautiful and stable.

The same color scheme and third-party factory processing are used, and Swiss C1+C3 luminous powder is purchased, so that the hands and nails have the same brightness.

The platinum-plated nails and crown scales add a luxurious texture to the watch. Although Clean Factory's selection may be limited, each piece is a masterpiece that solves common industry concerns and is committed to perfection.
