Description

Rolex GMT Master II M126720VTNR-0002

Let me introduce you to this factory-cleared replica Rolex GMT Master II M126720VTNR-0001 Sprite Series watch. This replica watch features a black dial and a metal strap. The strap differs slightly from the 0002 model in some details, so please be mindful. It is in excellent condition and boasts exceptional quality. With a stylish and sporty feel, the unique color scheme and distinctive style are instantly captivating.

Let's take a look at the various advantages of this watch:

The case is constructed entirely of 904L stainless steel, perfectly recreating the overall GMT case shape and refining the GMT's rotating feel. The crown and stem also feature

an embossed crown. It uses the same caliber 3285 as the original. The caseback is also polished and brushed, with a brushed bottom. The fit between the caseback and the watch is virtually identical. You can compare the clearance between the crown and the case yourself.

The primary difference between the Clean Factory Rolex GMT Master II M126720VTNR-0001 and M126720VTNR-0002 is the strap type:

M126720VTNR-0001: Equipped with an Oyster strap.

M126720VTNR-0002: Equipped with a Jubilee strap.

Other specifications and features of these two watches are essentially the same, including:

Case size: 40 mm, made of Oystersteel.

Movement: Equipped with the Rolex caliber 3285 automatic movement, it features a GMT function and displays a second time zone.

Dial: Black with Chromalight luminous display for legibility in all conditions.

Bezel: Bidirectional rotatable 24-hour graduated bezel with green and black ceramic Cerachrom inserts and molded numerals and indices.

Waterproof: Water-resistant to 100 meters (330 feet).

Note that the crown and shoulder guard of these two watches are located on the left side of the case, and the date display window and magnifying glass are located at 9 o'clock, which is a relatively unique design feature among Rolex watches.

The ceramic bezel, the 12 o'clock triangle, the top and bottom corners, and the sharp corners are all rounded, consistent with the original.

When it comes to fonts, depth is only one aspect. The original process required the base of the font to be perpendicular to the main body of the font at a 90-degree angle. This effect can only be achieved through integrated molding, while laser typing can result in a series of problems such as beveled surfaces, rough shadows, and collapsed edges.

The font depth is consistent with the original, sinking 0.13 mm. A corner of the front edge has been polished, and the plating color has been digitally adjusted. While most products on the market are pure gold, the original has a slight reddish tint, which is much more visually pleasing.

As for the inner shadow, the tail of the letter "R" has been corrected throughout the series, now slightly protruding. If I had to nitpick, it would be the inner shadow. The shadow isn't as detailed as before, due to the limitations of domestic laser technology and equipment.

Specification

Features	
Brand	Rolex
Model	GMT Master II
Serial Number	M126720VTNR-002
Gender	Man
Movement Type	Automatic Movement
Movement Model	Cal.3285 Automatic Movement
Case Size	40mm
Case Material	904L Stainless Steel
Hands and Markers	Black-edge hands and hour markers precisely replicate the design and shape of the original
Bezel	Bidirectional rotatable bezel with green and black Cerachrom ceramic insert. The bezel features a 24-hour scale for dual-time zone tracking, adding functionality to the design. Scratch-resistant and fade-proof for lasting durability and clarity.
Crystal	Scratch-resistant sapphire crystal with anti-reflective coating for enhanced visibility and durability. Ensures long-lasting protection while maintaining clarity in any environment.
Dial	Sleek black dial with luminous hour markers for easy readability in any lighting condition. Vibrant green GMT hand offers a distinct contrast, perfect for tracking a second time zone. Date window at 3 o’clock with a Cyclops lens for magnified clarity.
Bracelet	Oyster bracelet crafted from 904L stainless steel, designed for comfort and longevity. Equipped with an Oysterlock clasp for added security, with an Easylink extension system for an adjustable fit.
