It's common knowledge among watch enthusiasts that an authentic silver-dial model sells for approximately \$50,000, while the Tiffany Blue model, due to its unique color scheme,

soars to over \$200,000. At Clean Factory, our attention to detail is evident. The medallion on the clasp represents a breakthrough in craftsmanship, achieved through CNC engraving with precise shapes and enhanced internal polish.

The luminous material used is genuine SL blue luminous powder, which has a certain roughness and black spots, which is a feature familiar to anyone who has experienced or seen this watch. This is an inherent attribute unique to Rolex watches.
