Description

Let's take a look at the 41 mm replica Rolex Submariner M126610LN-0001 watch from Clean Factory. This replica watch features a black dial and a metal strap. The overall color scheme is simple and elegant, classic and enduring. While seemingly unassuming, it truly endures. It doesn't need a striking exterior; it conceals time behind it, quietly accompanying you through countless days. The simpler, the more enduring.

Let's take a closer look at the details of this watch:

Luminous Effect: To achieve the luminous effect, we use a third-party-processed and in-house-sourced Swiss C1+C3 luminous powder. Color consistency is crucial for achieving the luminous effect on the hands and hour markers.

Similar to Original Ceramic Components: The color of our watches closely resembles the original, clean ceramic components, a sign of high quality. Beware of counterfeit products, and carefully distinguish between genuine and fake.

Perfectly Replica Luminous Pearls: We use warm-toned luminous pearls to perfectly replicate the Submariner's clean ceramic bezel and luminous pearls, ensuring excellent luminous performance. We always strive for perfection, offering exceptional quality and meticulous attention to detail.

1:1 Authentic Movement: Our replica Rolex Submariner watch features a 1:1 replica movement, equipped with the powerful and highly stable Caliber 3235, which offers an exceptional 72-hour power reserve.

High-Quality Materials: The entire watch is crafted from 904L stainless steel and paired with an AR factory bracelet, ensuring exceptional durability and corrosion resistance.

Unique Dial Design: Our watch features a unique "flat-top dial" design without feet, showcasing a unique style and aesthetic.

Unique Calendar Font: Our watch features the only authentic calendar font, with the font for dates 1 through 31 meticulously compared to ensure perfect reproduction.
