Price: ~~\$999.00~~ \$666.00

Short Description

Clean Factory has launched a new Rolex Greenwich II M126718GRNR-0001 replica watch. The replica watch has a black dial and is equipped with a customized 3285 movement. The collision of black and gold will definitely catch your attention. Let's appreciate the style of this unique replica watch.

Description

I recommend this Rolex Greenwich II M126718GRNR-0001 replica watch made by a clean factory. The dial of this watch is black. The metal strap, the strap and the outer ring of the dial are designed in gold. The overall appearance is black and gold, which is calm and dazzling. The interweaving of the two colors breaks the monotony of all black. If you like something different, you can't miss it.

This replica watch is iteratively upgraded from the previous generation 3186 movement. From the small calendar function to the details of the case and strap, it has been continuously improved, and the exclusive 3285 Dandong movement has been added to bring you more surprises.

Several highlights of this update include:

The movement has been upgraded from 3186 to 3285, the power reserve has been increased from 42 hours to 72 hours, the appearance of the movement is consistent with the genuine 3285, and the timing direction is also consistent with the genuine 3285.

The feel of the bezel is constantly modified to meet the customer's requirements for frustration.

The entire strap is polished, especially the shading of the crown on the buckle. While maintaining the flat three-dimensional appearance, the shading achieves a dazzling effect. A set of comparison pictures will be posted later to show this important milestone update. The development of this crown took nearly two years and is now used on all Clean Factory models.

Specification

Features	
Brand	Rolex
Model	GMT Master II
Serial Number	M126718GRNR-0001
Gender	Man
Movement Type	Automatic Movement
Movement Model	cal. 3285 Automatic Movement
