Price: ~~\$969.00~~ \$649.00

Short Description

Welcome everyone, I would like to recommend this Clean Factory released Rolex GMT-Master II M126715CHNR-0001 replica watch. The replica watch is available with a black dial and is equipped with a customized 3285 movement. This is a rose gold replica watch with a unique temperament.

Description

This issue features a factory-clearance replica Rolex GMT Master II M126715CHNR-0001 rose gold watch. This watch features a black dial and a metal strap. The entire watch is clad in gold, exuding a luxurious aura. The gold exterior, coupled with its excellent luster, gives this watch a shimmering, elegant look. It exudes a unique and refined elegance. It's destined to remain unnoticed; its inherently unique character will captivate you.

More details:

The ceramic bezel of this factory-clearance replica Rolex GMT Master II rose gold watch features rounded corners at the 12 o'clock triangle, top corners, and bottom corners, and sharp corners, consistent with the original.

When it comes to fonts, shading is only one aspect. The original method was to create a 90-degree angle between the bottom of the font and the vertical portion. This effect can only be achieved through integral molding. Laser typing is prone to problems such as chamfered corners, rough shadows, and uneven edges.

The font depth is consistent with the original, sunken 0.13 mm. The corner of the front edge is polished, and the electroplating color has been digitally adjusted. While most products on the market are pure gold, the original will have a slightly reddish hue. Visually, this design is more comfortable and natural.

The case exterior is crafted entirely from 904L stainless steel, perfectly replicating the overall shape of the genuine GMT case while enhancing the tactile experience of the GMT bezel rotation. The crown handle features an embossed crown effect. The caseback mirrors the authentic version with a polished and brushed finish, and the underside of the case also undergoes brushing, making the caseback nearly indistinguishable from the outer case. The gap between the handle and the case can be felt by comparing them directly.

Regarding internal shading, the tail of the letter “R” has been adjusted across the entire series, appearing slightly more pronounced. If one were to nitpick, it would be the internal shading—due to limitations in domestic laser technology and equipment, the shading details are not as refined as before.

Specification

Features	
Brand	Rolex
Model	GMT Master II
Serial Number	M126715CHNR-0001
