**Weight:** 0.00kg  
**Dimensions:** 0.00cm x 0.00cm x 0.00cm

**Price:** ~~\$750.00~~ \$499.00

## Short Description

Welcome to the world of Clean Factory. This issue of Clean Factory brings you the Rolex Datejust M126234 replica watch. The replica watch is available in three colors and is equipped with a customized 3235 movement. It is precisely crafted to pay tribute to the original and the classic.

## Description

I'm excited to introduce this replica Rolex watch. This exquisite watch features diamond-set dial markers and a metal strap. Available in three colors: classic white and black and a more distinctive blue. The elegant design and beautiful colors are truly pleasing to the eye, and I absolutely adore it. The blue model, in particular, boasts a deep, rich blue that's truly unique and highly recommended.

This replica watch has a 36 mm dial and is powered by a Rolex 72-hour free-standing movement and a one-to-one Superlative caliber 3235, offering both aesthetics and durability.

This watch is crafted from 904L stainless steel and comes with an AR steel bracelet and an IP vacuum-plated platinum bezel, ensuring it's resistant to fading and is replaceable free of charge.

The platinum-plated watch studs and crown markers add a luxurious touch. While the selection at Clean Factory Fake Women's Watches may be limited, each piece is a masterpiece that addresses common industry concerns and strives for perfection.

The dial's sunburst pattern closely resembles the authentic model, and the unique calendar font allows for true 1-31 date comparison.

By using the same color, third-party processing, and sourcing Swiss C1+C3 luminous powder, the hands and studs achieve identical brightness.

Thank you for your interest! We will continue to bring you more classic Rolex replicas. Stay tuned.
