Price: ~~\$900.00~~ \$609.00

Short Description

Let's introduce the Rolex II M126710-004 replica watch released by Clean Factory. The dial is black and matched with a metal strap, which has good texture and excellent gloss. Compared with the other black replica watch 003 in this series, the strap has some differences in details. You can choose different watch models according to your preferences.

Description

Introducing the new GMT Master Rolex II M126710GRNR-0004 from Clean Factory, a high-quality replica watch from Clean Factory. This watch has a black dial and a metal strap, which is very textured and shiny. Turning the watch under the light allows you to see the beauty of the watch reflecting different lusters. It is highly ornamental and beautiful to wear. This is a heartwarming replica watch. I hope it will bring you not only heartbeats but also longer companionship.

Let's take a look at the main features:

Gray part: The gray area on the Clean bezel is slightly darker than the original, but it is a significant improvement over the gray of the 126713 model. The saturation of the gray

varies slightly under different light and angles, but the overall similarity is still over 95%. Clean's color-matching technology has made significant progress in such a short time.

Black part: The black part of the black-gray ceramic bezel is a perfect replica, and both the texture and color tone are 100% matched with the original.

Transition between black and grey

The transition between the black and grey parts of the ceramic bezel is handled very naturally, very similar to the original, showing superb craftsmanship. The ultra-fine replica level creates a quality that is strikingly similar to the original, just to present you with a replica watch of superb quality.

Engraving details

Look closely; the digital texture on the original is slightly more delicate than on the clean version, probably due to the silver engraving. However, this difference is almost imperceptible to the naked eye and does not affect the overall appearance. You can buy with confidence.

Immerse yourself in the refinement and innovation of the clean, new GMT Rolex GMT Master II M126710GRNR-0004, a watch that combines transparency, luxury, and precision craftsmanship to bring you a unique and elegant viewing experience.

Specification

Features	
Brand	Rolex
Model	Explorer
Serial Number	M226570-0001
Gender	Man
Movement Type	Automatic Movement
Movement Model	Cal.3285 Automatic Movement
Case Size	42mm
Case Material	904L Stainless Steel
Hands and Markers	Black-edge hands and hour markers precisely replicate the design and shape of the original
Bezel	Bi-directional rotatable bezel with green and black Cerachrom ceramic insert. 24-hour engraved scale, perfect for tracking multiple time zones. Scratch-

	resistant and fade-resistant, ensuring long-lasting durability.
