Short Description

Welcome friends, come and explore the Rolex Datejust M126234-0025 replica watch released by Clean Factory. This replica watch has a white dial and is equipped with a customized 3235 movement. It is simple and stylish, with fine workmanship, elegance and temperament.

Description

This Rolex Datejust m126234-0025 replica watch is made by Clean Factory, with a size of 36mm. The white dial is matched with a metal strap, which is clean and neat. It has excellent glossiness and a classic log design, which is long-lasting. The simple design brings a refreshing feeling, just like the cool breeze blowing in the summer, which makes people calm down.

This replica watch uses the Rolex 72-hour card-free movement and the one-to-one super 3235 integrated movement, which combines beauty and stability.

In addition, this watch is made of 904L stainless steel, equipped with AR steel strap and IP vacuum platinum-plated gear ring, which is guaranteed not to fade and can be replaced free of charge.

Using the same color, processed by a third-party factory, and purchasing Swiss C1+C3 luminous powder, the brightness of the hands and studs can be consistent.

The rising sun pattern on the dial is very similar to the original, and the unique calendar font on the market can be used for real 1-31 date comparison.

The platinum-plated nails and crown scales make it more luxurious. Although the selection of cleaning factories may be limited, each piece is a masterpiece that solves common concerns in the industry and is committed to perfection.

Specification
