## Short Description

Welcome, friends, to come and pay attention to the replica Rolex Datejust M126234-0013 watch released by Clean Factory. This replica watch has a light gray dial to choose from and is equipped with a customized 3235 movement. The overall workmanship is fine, and the texture is excellent.

## Description

This issue recommends the Rolex Datejust M126234-0013 replica watch, size 36mm. The dial color is light gray, with a metal strap. This replica watch does not have a particularly stunning appearance, but it reveals an unusual nostalgic atmosphere. Although the appearance is simple, the accessories and glossiness of various aspects will not be treated casually. It still uses the most tribute to the original craftsmanship, which is simple but not simple.

This Rolex Datejust replica watch created and displayed by Clean Factory is one of the exquisite replica versions of Rolex watches. It uses the Rolex 72-hour card-free movement and the one-to-one Super 3235 integrated movement, which combines beauty and stability.

This watch is made of 904L stainless steel, equipped with an AR steel strap and IP vacuum platinum-plated gear ring, which is guaranteed not to fade and can be replaced free of charge.

The rising sun pattern on the dial is very similar to the original, and the unique calendar font on the market can be compared with the real 1-31 date.

Using the same color, processed by a third-party factory, and purchasing Swiss C1+C3 luminous powder, the brightness of the hands and nails can be consistent.

The platinum-plated nails and crown scales are more luxurious. Although the choice of cleaning factories may be limited, each piece is a masterpiece that solves common concerns in the industry and is committed to perfection.
