## Short Description

Welcome to the world of Clean Factory products, we are committed to creating excellent Rolex replica watches. This issue of Clean Factory released the Rolex Datejust M126334-0025 replica watch, this replica watch is available with a blue dial and equipped with a customized 3235 movement, with an elegant and beautiful appearance and extraordinary quality.

## Description

The highly anticipated Clean Factory replica Rolex Datejust M126334-0025 is here. This replica watch is 41mm in size. The dial color is blue and is paired with a metal strap. The Datejust is a very classic Rolex watch. This blue watch is very sophisticated and is made strictly in accordance with the original one-to-one. The appearance is elegant and gentlemanly, and the temperament is extraordinary. Every gesture shows the charm of elegance.

This replica watch not only has excellent appearance, but also has powerful internal power. It is equipped with the Rolex Date 72-hour free-calender movement and the one-to-one Super 3235 integrated movement, which is both beautiful and stable.

The sun-radiated pattern on the dial is very similar to the original, and the unique calendar font on the market can achieve a true 1-31 date comparison.

The same brightness of the hands and studs is achieved by using the same color, processing by a third-party factory, and purchasing Swiss C1+C3 luminous powder by yourself.

In addition, the watch is made of 904L stainless steel, with optional AR steel strap and IP vacuum-plated platinum gear ring to ensure anti-fading and free replacement.

The platinum-plated nails and crown markings add a luxurious touch to the watch. Although Clean Factory's product range is limited, each one is a masterpiece that solves the common concerns of the industry with its commitment to pursuing perfection.

Thank you for your attention, we will work harder to present more wonderful replica watches and live up to your expectations.
