Short Description

I am very happy to recommend this replica Rolex Datejust M126334-0026 released by Clean Factory. This replica watch is available with a blue dial and is equipped with a customized 3235 movement. It has high quality and excellent texture and is worth having.

Description

I will continue to introduce the M126334-0026 replica watch made by Clean Factory, which is 41mm in size. This watch has a blue dial and a metal strap. The classic datejust watch will always be in people's hearts. Seeing this replica watch, both the appearance and the inner power are incomparable. The deep blue always reminds people of the sea, mysterious and dangerous, but also has infinite appeal. Under this calmness, there is a hint of temptation, who can resist it?

Let's see more details:

First of all, this is a carefully crafted replica of a Rolex watch. This watch is equipped with a Rolex Date 72-hour free-card movement and a one-to-one Super 3235 integrated movement, which is beautiful and stable in performance.

The watch is made of 904L stainless steel, and you can choose an AR steel strap and an IP vacuum-plated platinum gear ring to ensure anti-fading and free replacement.

The sunburst pattern on the dial is very similar to the original, while the calendar font unique to the market allows for true 1-31 date comparison.

The same brightness of the hands and nails was achieved by using the same color, processing by a third-party factory, and purchasing Swiss C1+C3 luminous powder in-house.

The platinum-plated nails and crown scales add a luxurious touch to the watch. Although the styles of the Clean Factory Datejust are limited, each one is a masterpiece that solves common concerns in the industry with a commitment to perfection.

Specification

Features	
Brand	Rolex
