Short Description

I am honored to have the opportunity to recommend this Rolex Datejust M126334-0017 replica watch released by Clean Factory. This replica watch has a black dial and is equipped with a customized 3235 movement, which is stable and powerful and provides long-lasting power. The internal and external improvements make this watch popular among the public.

Description

Let's take a look at this Rolex classic Datejust watch M126334-0017, size 41mm. This replica watch launched by Clean Factory has a black dial and a metal strap, which is glossy and transparent with a strong texture. The overall color scheme is classic, simple and versatile. You don't have to think about it, and you can match it with a variety of styles in daily life. And it is well-made and is a carefully crafted replica watch. The quality is excellent, and you don't have to worry about quality issues.

Here are more detailed details:

This is a carefully crafted replica of a Rolex watch. It is equipped with the Rolex Date 72-hour free-cal movement and the one-to-one Super 3235 integrated movement, which

combines beauty and stability.

The watch is made of 904L stainless steel, with an optional AR steel strap and IP vacuum-plated platinum gear ring to ensure anti-fading and free replacement.

The sunray pattern on the dial is very similar to the original, and the market-unique calendar font allows for true 1-31 date comparison.

By using the same color, processing by a third-party factory, and purchasing Swiss C1+C3 luminous powder by ourselves, the same brightness of the hands and nails is achieved.

The platinum-plated nails and crown scales add a luxurious touch to the watch. Although Clean Factory's products are limited, each one is a masterpiece that solves common concerns in the industry with its commitment to pursuing perfection.

Specification

Features	
Brand	Rolex
Model	Datejust
Serial Number	M126334-0017
Gender	Man
Movement Type	Automatic Movement
Movement Model	Cal.3235 Automatic Movement
