**Weight:** 0.00kg  
**Dimensions:** 0.00cm x 0.00cm x 0.00cm

**Price:** ~~\$699.00~~ \$499.00

## Short Description

This issue still recommends the Rolex Datejust M126334-0013 replica watch released by Clean Factory. The replica watch has a gray dial to choose from and is equipped with a customized 3235 movement. Its appearance and internal power are comparable to the original, bringing you high-end quality enjoyment.

## Description

The masterpiece launched in this issue is the Rolex Datejust M126334-0013 watch made by Clean Factory, with a size of 41mm. The gray dial is matched with a metal strap, which is always low-key and simple. The more tasteful and time-resistant things are, the more they look ordinary. Just like the book that is always on the bookshelf, it has no exquisite packaging, but it is your favorite and you often pick it up to read. The same is true for watches.

Below is a detailed display of details:

1. This watch is equipped with the Rolex Date 72-hour cardless movement and the one-to-one Super 3235 integrated movement, which is both beautiful and stable.

- 2. The watch is made of 904L stainless steel, and you can choose AR steel strap and IP vacuum-plated platinum gear ring to ensure anti-fading and free replacement.
- 3. The sun-radiated pattern on the dial is very similar to the original, and the market-unique calendar font can achieve a true 1-31 date comparison.
- 4. The same brightness of the hands and nails was achieved by using the same color, processing by a third-party factory, and purchasing Swiss C1+C3 luminous powder by ourselves.
- 5. The white gold-plated nails and crown markers add a touch of luxury to the watch. Although Clean Factory's product range is limited, each one is a masterpiece that solves common concerns in the industry with its commitment to pursuing perfection.

| Movement Model    | Cal.3235 Automatic Movement                                                                                                                                                                                                                   |
| Case Size         | 41mm                                                                                                                                                                                                                                          |
| Case Material     | 904L Stainless Steel                                                                                                                                                                                                                          |
| Hands and Markers | Black-edge hands and hour markers precisely replicate the design and shape of the original                                                                                                                                                    |
| Bezel             | Fluted 18K white gold bezel, adding a touch of luxury and elegance to the overall design. The fluted bezel is one of Rolex’s most recognizable features, adding both texture and distinction to the watch.                                    |
| Crystal           | Scratch-resistant sapphire crystal with an anti-reflective coating, offering clear visibility while protecting the dial from damage. The crystal maintains the integrity of the timepiece and reduces glare for optimal readability.          |
| Dial              | A beautiful grey dial with a sunburst finish that catches the light, offering a sophisticated yet understated look. Luminous hour markers and hands for visibility in low light conditions. Date window at 3 o’clock with a magnified Cyclops |

|          |                                                                                                                                                                                                                                                                    |
