Short Description

Thank you all for your attention and support. This issue will take you to explore the Rolex Datejust M126334-0020 replica watch released by Clean Factory. This replica watch has a white dial to choose from and is equipped with a customized 3235 movement to provide powerful power support. This is a replica watch with excellent quality and appearance.

Description

Let's continue to appreciate this Rolex Datejust M126334-0020 watch, size 41mm. This replica watch is launched by the Clean Factory, with a white dial and a metal strap. The dial scale creates an exquisite diamond-set design, which is very beautiful. The mirror gloss of the dial is excellent, and the overall texture is excellent. It has the feeling of a lady from a noble family, gentle and beautiful, and beautiful.

The following details are introduced in detail:

The watch is made of 904L stainless steel, and you can choose AR steel strap and IP vacuum-plated platinum tooth ring to ensure anti-fading and free replacement.

The sun-ray pattern on the dial is very similar to the original, and the calendar font unique to the market allows for true 1-31 date comparison.

The same brightness of the hands and studs is achieved by using the same color, processing by a third-party factory, and purchasing Swiss C1+C3 luminous powder by yourself.

This watch is equipped with the Rolex Date 72-hour free-spacing movement and the one-to-one Super 3235 integrated movement, which combines beauty and stability.

The platinum-plated nails and crown scales add a touch of luxury to the watch. Although Clean Factory's products are limited in variety, each one is a masterpiece that solves common concerns in the industry with its commitment to pursuing perfection.
