Short Description

Welcome, everyone! In this issue of Clean Factory, we have released a replica Rolex Datejust M126334-0032. This replica watch is available with a blue dial and is equipped with a customized 3235 movement. Its elegant and stylish appearance will attract people's attention, and it also has powerful power support. How can it not be attractive?

Description

Hello, thank you for stopping by. I'd like to introduce you to the Clean Factory replica Rolex Datejust M126334-0032, measuring 41 mm. It features a blue dial and a metal strap. This watch embodies an elegant and intellectual beauty, a gently radiating charm. It will instill confidence and empower you to be full of hope for life. It's like an old friend, always there, silently but powerfully speaking.

This watch features the Rolex 72-hour free-card movement and the one-to-one Super caliber 3235 integrated movement, combining beauty and stability. Made of 904L stainless steel, it comes with an AR steel bracelet and an IP vacuum-plated platinum-plated bezel, guaranteed to resist fading and replaceable free of charge.

The platinum-plated watch pins and crown indices add a touch of luxury. While Clean

Factory's selection may be limited, each piece addresses common industry concerns and is a masterpiece dedicated to perfection.

The sunburst pattern on the dial closely resembles the original, and the unique calendar font on the market allows for authentic 1-31 date comparisons.

Using the same color scheme, processed by a third-party factory, and using Swiss C1+C3 luminous powder, the hands and studs are uniformly illuminated.

Specification
