Short Description

Welcome to this issue of Clean Factory's Rolex Datejust M126234-0049 replica watch. Available with a blue dial, this replica features a custom caliber 3235 movement, creating a beautiful color and exceptional luster. Crafting first-class replica watches with meticulous attention to detail is our constant pursuit.

Description

I'm honored to have this opportunity to recommend this 36mm replica Rolex Datejust M126234-0049, crafted by Clean Factory. The dial is blue and paired with a metal strap. This is a simple women's watch. The finely textured strap is also more suitable for women, adding a touch of elegance. I've always found this blue, like a sapphire, so captivating and dazzling that it's hard not to notice it, and I can't resist owning it.

This watch is made of 904L stainless steel, with an AR steel strap and an IP vacuum-plated platinum-plated bezel, guaranteed to be fade-resistant and replaceable free of charge.

The sunburst pattern on the dial is very similar to the original, and the unique calendar font allows for authentic 1-31 date comparisons.

The dial is finished in the same color, using Swiss C1+C3 luminous powders, ensuring consistent brightness on the hands and hands.

The platinum-plated hands and crown markers add a touch of luxury. While Clean Factory's selection may be limited, each piece addresses common industry concerns and is a masterpiece committed to perfection.

This Clean Factory Rolex Datejust 36mm clone women's watch is a refined replica of a Rolex watch. It utilizes the Rolex 72-hour free-card movement and the one-to-one Supercaliber 3235 integrated movement, combining beauty and stability.

Specification
