Description

Continue to explore the replica Rolex Daytona 116520-78590 watch launched by the Clean Factory. The dial color of this watch is white, with a gray metal strap. It is very elegant and has a gentlemanly temperament. The internal quality performance is also excellent, and the powerful movement allows you to worry about the product quality. The processing of various details, glossiness, and texture is also very in place. Excellent quality and widely praised.

The joint between the glass and the case is completely transparent, and no white edge can be seen. The curvature of the glass edge is consistent with the original, the height of the ceramic ring protruding from the glass is consistent with the original, the ceramic ring has a stronger roundness, the font is clean, and the edge of the ceramic ring is slightly rounded.

The luminous filling height is moderate, and the brightness is good; the font printing is three-dimensional, and the size of the small black circle is consistent with the original.

The strap or case fits seamlessly, the top of the strap/case is flush with the case, and the tail is slightly concave. The bottom of the strap or case is concave with the watch head, which is consistent with the original.

This replica watch features an impeccable enamel black dial with zero color difference, and each part of the carefully assembled three-layer dial is electroplated. The bezel is filled with precisely matched black oil to present the same matte effect as the original.

The watch is equipped with a newly customized Rolex-exclusive Cal. 4130 automatic winding movement, which matches the thickness of the original. Each function is 100% realized and equipped with an unprecedented customized KIF shock absorber. The entire assembly follows the design of the original Cal.4130 movement, and all three splints perfectly reflect the original, from chamfers to sunburst patterns, maintaining 1:1 respect for the original design. This not only surpasses all Daytona series imitations on the market but is also the only replica that can rival the original.

This Clean Factory replica Rolex Daytona watch features 904L material, 4130 movement, an AR strap, a clean dial/unique edition, a clean ceramic bezel, and polished factory hands, with a thickness of 12.2-12.3.
