Description

We'd like to introduce you to the Rolex Submariner 116610LV-0002 replica watch, a 40 mm watch with a green dial and a metal strap. It boasts an excellent gloss and exceptional quality. As a diving watch, it is undoubtedly a top-quality piece. Unlike the classic black and white, the unique green color scheme is captivating, like an invisible attraction, inviting you to explore the mysterious underwater world.

Let's take a look at the various features of this replica watch:

1:1 Fine Movement: Our replica Rolex Submariner watch features a 1:1 fine movement, equipped with the powerful and highly stable Caliber 3135, offering an exceptional 72-hour power reserve.

High-Quality Materials: The entire watch is crafted from 904L stainless steel and paired with an AR factory bracelet, ensuring exceptional durability and corrosion resistance.

Luminous Finish: To achieve this luminous effect, we use a combination of third-party processing and in-house Swiss C1 and C3 luminous powders. Color consistency is crucial for achieving the luminous effect on the hands and hour markers.

IP Platinum-Plated Watch Pins: Our watch pins are IP platinum-plated, enhancing the overall appearance and providing a premium feel.

Similar to Original Ceramic Components: The color of our watches closely resembles the original, clean ceramic components, signifying high quality. Beware of counterfeit products, and be careful to distinguish genuine from fakes.

Perfectly Replica Luminous Pearls: We perfectly replicate the Submariner's clean ceramic bezel and luminous pearls with warm-toned luminous pearls, ensuring excellent luminous performance.

Unique Dial Design: We utilize a unique "flat-top dial" design without feet, showcasing a unique style and aesthetic.

Unique Calendar Font: Our watches utilize the only authentic calendar font, with detailed comparisons of the font for dates 1 through 31 to ensure a perfectly detailed reproduction.

While the selection of styles offered by Clean Factory Replica is limited, each one is a masterpiece, addressing most of the pain points associated with the Rolex Submariner in the market. Our pursuit is always aimed at perfection, providing excellent quality and meticulous attention to detail.
