Short Description

Friends who like gold watches can pay attention to this Rolex Daytona M116508-0014 replica watch released by Clean Factory. The replica watch has a gold dial to choose from and is equipped with a customized 4130 movement, which is powerful and provides high-performance internals. The appearance is exquisite and noble, highlighting the personal temperament.

Description

A replica watch that cannot be missed, the replica Rolex Cosmograph Daytona M116508-0014 gold watch from Clean Factory. This watch has a gold dial and strap, and the whole watch shines with golden light. It is very textured and has an unparalleled exquisite appearance. It can set off the extraordinary temperament of the wearer. I wonder if you, who have a discerning eye, like this noble and beautiful gold watch.

Let us introduce more details:

Exquisite enamel black dial, zero color difference, carefully assembled three-layer dial, each part is electroplated. The bezel is filled with precisely matched black oil to present the same matte effect as the original.

The watch is equipped with a newly customized Rolex-exclusive Cal. 4130 automatic winding movement, which matches the thickness of the original. Each function is 100% realized and equipped with an unprecedented customized KIF shock absorber. The entire assembly follows the design of the genuine Cal.4130 movement, and all three plywoods perfectly reflect the genuine product from the chamfers to the sunburst pattern, maintaining 1:1 respect for the original design. This not only surpasses all Daytona replicas on the market but is also the only replica that can rival the original.

Clean Factory's replica Rolex Daytona watch uses 904L material, 4130 movement, an AR strap, a clean dial/unique version, a clean ceramic ring, and polished factory hands, with a thickness of 12.2-12.3.

The seam between the glass and the case is completely transparent, and no white edges can be seen. The curvature of the glass edge is consistent with the original, the height of the ceramic ring protruding from the glass is consistent with the original, the ceramic ring has a stronger rounded feel, the font is clean, and the edge of the ceramic ring is slightly rounded.

The luminous fill height is moderate and the brightness is good, the font is printed three-dimensionally, and the size of the small black circle is consistent with the original.

The strap or case fits seamlessly, the top of the strap/case is flush with the case, and the tail is slightly concave. The bottom of the strap or case is concave with the watch head, which is consistent with the original.

Specification

Features	
Brand	Rolex
Model	Daytona
