Short Description

Clean Factory has released the Rolex Daytona M116508-0009 replica watch. The replica watch is available with a black dial and is equipped with a customized 4130 movement. It has a stylish and handsome appearance and is carefully crafted. We strive to present high-quality replica watches.

Description

Let's continue to introduce this boutique of the gold watch series, the replica Rolex Daytona M116508-0009 watch made by the Clean Factory. The dial color is black, the three small discs are gold, and it is matched with a metal strap. Black and gold complement each other, the king's style, and the atmosphere is steady. In addition to its beautiful appearance, its quality is also quite excellent. It will definitely show your style to the fullest.

Let's learn more about the details:

Exquisite enamel black dial, zero color difference, carefully assembled three-layer dial, each part is electroplated. The bezel is filled with precisely matched black oil to present the same matte effect as the original.

The watch is equipped with a new customized Rolex-exclusive Cal.4130 automatic winding movement, which matches the thickness of the original. Each function is 100% realized, equipped with an unprecedented customized KIF shock absorber. The entire assembly follows the design of the genuine Cal.4130 movement, and all three plywoods perfectly reflect the genuine product from the chamfers to the sun pattern, maintaining 1:1 respect for the original design. This not only surpasses all Daytona replicas on the market but is also the only replica that can compete with the original.

Clean Factory's replica Rolex Daytona watch uses 904L material, 4130 movement, an AR strap, a clean dial/unique version, a clean ceramic ring, and polished factory hands, with a thickness of 12.2-12.3.

The seam between the glass and the case is completely transparent, and no white edge can be seen. The curvature of the glass edge is consistent with the original, the height of the ceramic ring protruding from the glass is consistent with the original, the ceramic ring has a stronger rounded feel, the font is clean, and the edge of the ceramic ring is slightly rounded.

The luminous fill height is moderate and the brightness is good, the font is printed three-dimensionally, and the size of the small black circle is consistent with the original.

The strap or case fits seamlessly, the top of the strap/case is flush with the case, and the tail is slightly concave. The bottom of the strap or case is concave with the watch head, which is consistent with the original.

Specification

Features
